Neighborhood Outreach

- The City does not have a comprehensive list of neighborhoods, HOAs or neighborhood contacts
- If the City does have recent contact information for neighborhoods in or adjacent to a proposed project site, OSI Neighborhood Engagement Team will coordinate connection to those neighborhood contacts
- If no neighborhood contacts are available, OSI Neighborhood Engagement Team can notify neighborhoods in surrounding neighborhoods through use of Nextdoor

Neighborhood Nextdoor Communications

If a proposed project has a project website, development details or public meeting to share with community, send the following information to Sarah Stubblefield (neighborhoods@arlingtontx.gov):

- Images/documents you wish to share
- 2-3 sentences about the project/meeting
- Contact information for residents to call/email

OSI Neighborhood Engagement Team will share on Nextdoor, and coordinate any comments and final metrics to project team upon request.

Email is most efficient method to receive information about neighborhoods and neighborhood contacts
