

- Find watering restrictions for sprinklers and conservation tips at www.SaveArlingtonWater.com.
- Customers with remote read meters can monitor their hourly water usage and sign up for high usage and high bill alerts by visiting www.arlingtontx.gov/KnowYourH2O.
- Arlington Water Utilities averages winter water usage to set your maximum sanitary sewer costs for the following year. Watch your November utilities bill for details and remember, saving water this winter can pay off all year long.

Important Information:

- The Arlington City Council has authorized money from the Water/Wastewater Rate Stabilization Fund to be used to delay Fiscal Year 2022 water and sanitary sewer rate increases until January 1, 2022 thus reducing the annual increase by 25 percent.
- A 5% past due fee is added to water and sewer bills when the bill is not paid by the due date. The 5% is calculated on the current month's water and sewer charges.

For a complete list of fees and payment options, or if you have any questions or concerns, please contact us:

Web: www.arlingtontx.gov/water

Email: water@ArlingtonTX.gov

Phone: 817-275-5931

After hours water or sewer emergencies: 817-459-5900.

Si necesita usted hablar con un representante en Español, por favor llame al 817-275-5931.

Please note: New rates will be in effect on Oct. 1, 2021 for trash/recycling collection services and Arlington's stormwater (drainage) fee. The Stormwater Utility Fee will increase from \$7.50 to \$8 per Equivalent Residential Unit (ERU). The residential refuse charge (trash/recycling collection) will increase from \$15.03 to \$15.46.

UTILITY RATE UPDATE

Effective January 1, 2022

Arlington Water Utilities residential rates for water usage are some of the lowest in North Texas. For fiscal 2022, the average residential water and sewer bill will increase by about \$1.84 a month, or about 6 cents a day. Rate changes for Fiscal Year 2022 are primarily related to increases in debt service, chemical and equipment costs, franchise fees, and other costs associated with operating the utility.

Over the next year, Arlington Water Utilities will complete two multi-million dollar water infrastructure projects: the John F. Kubala Water Treatment Plant Chemical Improvements and the Lake Arlington Raw Water Pump Station. Both projects will improve water service in The American Dream City for decades to come.

In late 2021, Arlington Water Utilities will begin a 4-year project to make \$112 million in improvements to the Pierce-Burch Water Treatment Plant. The plant was built in 1972 and has a current water treatment capacity of 75 million gallons per day. Financing the project with low interest loans from the Texas Water Development Board will save the City about \$24 million over the life of the loan.

Information on water rates effective January 1, 2022, is available in Tables 1-6 below. Table 8 is an example bill calculation.

WATER RATES: Use Water Wisely!

1

Residential Block Structure

Usage (1,000 gal)	Rate
0 - 2	\$2.08
3 - 10	\$2.87
11 - 15	\$4.14
16 - 29	\$5.80
≥ 30	\$6.98

Water rates per 1,000 gallons for all residential, duplex, residential builder and individual mobile home account classifications.

2

Commercial Block Structure

Usage (1,000 gal)	Rate
0 - 15	\$3.30
≥ 16	\$3.48

Water rates for all commercial, apartment, institutional and high volume meter account classifications.

3

Irrigation Block Structure

Usage (1,000 gal)	Rate
0 - 29	\$5.80
≥ 30	\$6.98

The per 1,000 gallon charge for all meters used for sprinkler accounts, regardless of account classification.

4

Construction Block Structure

Usage (1,000 gal)	Rate
0 - 99	\$6.08
≥ 100	\$7.66

Water rates for all construction meter account classifications.

SEWER RATES

5

All Classifications Block Structure

Usage (1,000 gal)	Rate
All Usage	\$5.28

6

FY 2022 FIXED MONTHLY FEES

Meter Size	Water	Sewer
$\frac{5}{8}$ x $\frac{3}{4}$ " (≤ 2,000 gal) Residential only	\$7.31	\$7.87
$\frac{5}{8}$ x $\frac{3}{4}$ " (≥ 3,000 gal) Residential and all other customer classes	\$10.61	\$13.33
1"	\$20.91	\$24.23
1- $\frac{1}{2}$ "	\$47.79	\$53.68
2"	\$83.43	\$90.36
3"	\$196.73	\$279.28
4"	\$313.12	\$416.69
6"	\$729.24	\$1,133.57
8"	\$1,140.21	\$1,493.50
10"	\$1,713.92	\$2,177.52

7

FIRE PROTECTION SYSTEM RATES

Fire Line Size (eff. Oct. 1, 2021)	Fixed Monthly Fee
1"	\$20.91
1- $\frac{1}{2}$ "	\$47.79
2"	\$83.43
3" and above	\$196.73

8

EXAMPLE

The following **example** billing calculation is for a residential customer with a $\frac{5}{8}$ x $\frac{3}{4}$ " meter using 7,000 gallons of water on a domestic meter (*serving the inside of the home*) and 4,000 gallons of sewer.

W a t e r C h a r g e	Fixed fee	\$10.61
	First 2,000 gallons (2 x \$2.08)	\$ 4.16
	Next 5,000 gallons (5 x \$2.87)	<u>\$14.35</u>
	TOTAL water	\$29.12
S e w e r C h a r g e	Fixed fee	\$ 13.33
	4,000 gallons (4 x \$5.28)	<u>\$21.12</u>
	TOTAL sewer	\$34.45
TOTAL Water and Sewer Charge		\$63.57

For any classification of customer with a sprinkler system tied into their domestic account (i.e., the meter is not being used as a sprinkler meter exclusively), the billings will be calculated using the residential or commercial block rates and not the irrigation block rates.
