If I were a Monarch Butterfly, it would be awesome. I really like butterflies, especially Monarchs! If I were a butterfly I would fly all day and wrap my wings around myself at night. I would also be very careful because different animals might want to eat me whole! Another thing I like about Monarch butterflies is that they have bright colors on their wings. I heard they were once a state bug, which is pretty cool if you ask me! Monarchs are also very popular and well known! My opinion is the butterflies are pretty! But I am a human. But I am a special human and I am very happy with myself even if I'm not a butterfly!
