## Wilderness Day

If there was a way, I could make a holiday for all the animals, it would be to let all animals free and put them in their natural habitats for a day. This day would be called Wilderness Day and it allows pets to have an experience in the wild in a safe way with other house pets. Outdoor places like a city garden or a state park would allow pets to go there and have a good time with their owners and other pets. The celebration would include a picnic with your pet and a relaxed place for the animals to roam. Your pet can discover new things such as playing in puddles, jumping on rocks, and many other things that they can't do in a house. Living in a house as a pet could sometimes be boring, especially if you don't have someone to play with when everyone is gone. Wilderness day gives pets a chance to have fun in nature doing what they love. We should celebrate Wilderness Day because of how much joy pets bring to us.
