“Aww...Look at that poor cat. It seems so sorrowful. It should have it’s own twenty-four-hour period of an exciting time relaxation and some playtime.” National CAT-astrophe day is a state-of-the-art animal holiday for cats and cats only. This is an exciting way for your cats to have the time of their lives.

The first way the cats celebrate this amazing holiday is to play. All cats get to start their holiday by a maze to get delicious cat food. The cat follows all the treats by sense of smell leading to a dead end or the food bowl. Each cat gets a maze of food leading them to ultimate victory. The last way the cat celebrates by playing is scratching a scratching post. The scratching post will be sprayed with catnip so the cat will scratch as long as they want.

Another way cats celebrate this animal holiday is the rest of the day is relaxation. Cats celebrate this holiday in the purr palace of cats. In the morning, cats and their humans will wake up to breakfast with pancakes for the human and tuna for the cats.

“Okay CC. It’s time to go!” “You don’t want to? Okay we’ll stay another hour.” I reply as CC purred loudly in my ear. National Cat-astrophe Day is a holiday we want your cat to enjoy every year!
